

Agency Pricing & System Strategy

Single Source of Truth • Version 2.3 • April 25, 2026

1. Core Philosophy

- We sell **two separate products**: Website Services and Marketing Suite.
- We follow a clear **decision tree** for websites: (1) Do they want a website built? (2) Handover or Managed?
- We prioritize **high margins** and **maximum revenue** — no unnecessary discounts.
- We keep pricing **simple** for clients while maintaining clear internal rules.
- We are **transparent** with AI usage costs (charged at cost + 100% markup).
- We focus on delivering a **premium experience** and building long-term relationships.

2. Product 1: Website Services (Framer)

Website Decision Flow

1. Does the client want a website built? → **No** = Skip to Marketing Suite | **Yes** = Proceed
2. Handover or Managed? → **Handover** = One-time only | **Managed** = One-time + Monthly (recommended)

Website Pricing by Complexity

Complexity	One-Time Fee (Handover or Managed)	Monthly (Managed Only)	Description
Basic Landing Page (Single page)	\$7,995	\$995	High-converting single-page landing page, beautiful design, smooth animations, lead capture, basic GHL integration
Standard (6–12 pages)	\$14,995	\$1,495	Clean modern design, basic animations, forms, booking calendar, standard GHL integration
Advanced (15+ pages)	\$19,995	\$2,195	Heavy custom animations, multiple CTAs, advanced interactions, priority performance optimization
Complex (E-commerce)	\$27,995	\$3,495	E-commerce store, membership area, custom dashboards, advanced integrations, complex logic
Enterprise (Web App)	\$39,995+	\$4,995+	Full custom web application, user accounts, API-heavy, multi-language, advanced admin panel

Key: One-time fee is identical for Handover and Managed. Only monthly fee differs. Deep GHL integration included in all Managed websites. Basic integration only for Handover.

3. Product 2: Marketing Suite (GHL + AI + Strategy)

Two Paths

Path	Name	One-Time	Monthly	Manages	Best For
Path 1	Straight SaaS	\$6,995–\$14,995	\$997–\$6,997	Client	Price-sensitive / tech-savvy
Path 2	Bespoke Managed (Recommended)	\$11,995–\$49,995	\$2,995–\$20,995	AM (Full Service)	Most clients

Straight SaaS Pricing (Self-Managed)

Tier	Revenue	One-Time	Monthly
Small Business	Under \$1M	\$6,995	\$997

Growth Business	\$1M – \$5M	\$8,995	\$1,997
Scale Business	\$5M – \$15M	\$10,995	\$3,497
Enterprise	\$15M+	\$14,995	\$6,997

Bespoke Managed Pricing (Full Service – Recommended)

Tier	Revenue	One-Time	Monthly
Small Business	Under \$1M	\$11,995	\$2,995
Growth Business	\$1M – \$5M	\$18,995	\$5,495
Scale Business	\$5M – \$15M	\$27,995	\$9,495
Enterprise	\$15M+	\$39,995–\$49,995	\$15,995–\$20,995

4. Add-ons (Available on All Tiers)

Add-on	One-Time	Monthly	Description
Ad Management	—	15% of ad spend	Google + Meta management with SearchAI optimization
Premium AI Usage	—	Cost + 100%	Voice AI, advanced agents, heavy content generation (usage-based)
SearchAI.io – Single Audit	\$3,995	—	One-time forensic ad account audit + actionable report
SearchAI.io – Monthly Access	—	\$2,495 – \$3,995	Full tool access + monthly optimization (tiered by client size)
Launch Accelerator	\$4,995	—	One-time launch campaign sprint + creative assets + 30-day optimization
Discovery + Strategy Session	\$2,495	—	Paid entry point + comprehensive tool audit + custom strategy document
Performance Bonus	—	8–12% of revenue above baseline	Enterprise tier only – aligns our success with yours

5. Key Policies

- **AI Usage:** All premium AI features (Voice AI, advanced agents, heavy content generation) are charged at actual cost + **100% markup**. No buffering.
- **Annual Prepay Discount:** 8–10% (kept minimal to protect margins and maximize revenue).
- **Minimum Commitment:** 3 months on all monthly plans.
- **Payment Terms:** One-time: 50% upfront, 50% on delivery. Monthly: Billed on the 1st. Late: 5% after 7 days, 10% after 14 days.
- **Cancellation:** 30 days written notice. No refunds on setup fees.
- **Scope Creep:** Work outside defined scope billed at \$175–\$225/hour.

6. Internal Decision Rules

- Always lead with **Bespoke Managed + Website**.
- Offer **Straight SaaS** only when client expresses strong price sensitivity.
- Use **Website Complexity table** when scoping – never force complex projects into standard pricing.
- Never heavily discount monthly fees — discount one-time fees only if needed to close.
- Enterprise clients should always be presented with the **Performance Bonus** option.
- If client already has a website: Offer Discovery Session first to audit and recommend rebuild/migration.

7. Internal Pricing Calculator

Build a Google Sheet with these inputs:

Inputs: Client Tier • Wants Website? (Y/N) • Handover or Managed? • Website Complexity • Ad Spend • Launch Accelerator? • Discovery Session?

Outputs: One-time Total • Monthly Total • Recommended Proposal Summary

This calculator can later feed into automated proposals, contracts, and invoicing via Zapier/Make + GHL.
